Decision Number 51/10 of the Presidium of the East German Council of Ministers, which was drawn up at a meeting of that body on 12 August 1954, established the following:

1. An industrial institute was to be established on or before 1 April 1955 at Bergakademie Freiberg for the specialized fields of mining and metallurgy, with a yearly quota of 30 students in each of the two fields. Another industrial institute was to be established on or before 1 January 1956 at the Technische Hochschule fuer Chemie for the specialized field of chemistry, also with a yearly quota of 30 students.
2. The Ministry for Heavy Industry was made responsible for constructing, equipping and carrying on the work of the institutes, and that Ministry, in cooperation with the State Secretariat for Hochschule Affairs, was to appoint special representatives who would make all the necessary preparations for completing the institutes and beginning the training of the first group of students by the target dates indicated.
3. Each student in the industrial institutes was to receive a special stipend which would amount to his average net earnings during the last half year previous to his matriculation at the institute. Furthermore, the students would continue to receive all prerogatives, such as housing for their families, which they had enjoyed at their former places of employment.
4. The Ministry for Heavy Industry was to set up a plan indicating the cost of operating the industrial institutes. This plan was to be checked by the Ministry of Finance, which would provide the funds necessary for their operation.
5. A statement of the investments necessary for establishing the industrial institutes was to be submitted for decision to the Presidium of the Council of Ministers by 1 October 1954.
6. Other sections in the Decision of the Presidium of the Council of Ministers were concerned with structural plans, plans for personnel organization and the compensation of faculty members. The chief purpose of the institutes
